Summary:

I am a former Deputy Manager at Shahjalal Islami Bank PLC, where I dedicated seven years of service and contributed to the banking sector for a total of 15 years. Throughout my career, I gained extensive experience in management, problem-solving, and building strong client relationships.

In 2024, I made a bold decision to pivot my career by resigning from my banking role to pursue a long-standing passion for technology. After completing comprehensive training in web development, I successfully transitioned into a new career path as a React.js developer.

Equipped with modern technical skills and a solid foundation in programming, I specialize in creating responsive and interactive web applications that deliver seamless user experiences. My background in banking and mathematics has honed my analytical thinking, attention to detail, and ability to manage complex systems-skills I now leverage in my web development projects.

I am currently seeking opportunities to apply my technical expertise, creativity, and dedication to building innovative and impactful web applications.

Technical Skills:

Frontend: React.js, HTML5, CSS3, Tailwind CSS, JavaScript (ES6+)

Backend: Node.js, Express.js

Database: MongoDB

Tools: npm, Git, GitHub, REST APIs, JWT

Soft Skills:

Attention to Detail, Active Listening, Fast Learner, Teamwork, Time Management, Alternate Thinking

Experience:

Deputy Manager

Shahjalal Islami Bank PLC, Dhaka, Bangladesh

April 2009–May 2024

- Oversaw overall branch operations, ensuring compliance with regulatory standards and maintaining smooth day-to-day activities.
- Managed branch performance by monitoring operational activities and delivering exceptional client service.
- Handled high-pressure situations, resolved client concerns effectively, and fostered strong relationships with key stakeholders.
- Led and motivated teams, streamlined workflows, and implemented strategic initiatives to achieve organizational goals.
